Roll grooved 45, long tangent

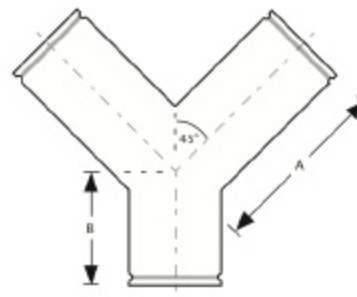

Roll grooved cross (B16.1)

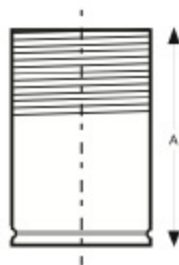

Roll grooved 45° Lateral

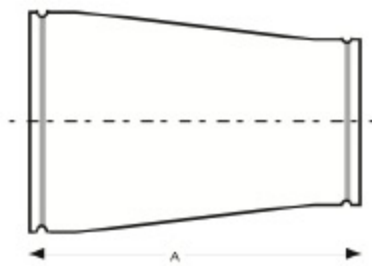

Groove x Flanged Nipple

Roll grooved True Wye

Groove x MPT Nipple

Roll grooved long tangent conc B16.1

Groove x BW Nipple

- Grooved piping systems are an alternative assembly of pipe, fittings, and clamps designed for rapid assembly/disassembly of the pipeline, oftentimes for clean-out.
- Tangents required on some fittings. Call for details.
